

PCTransformator

```
classDiagram
    class PCTransformator
    class kukadu_OpenBoxFilter["kukadu::OpenBoxFilter"]
    class kukadu_PlanarCutTransformator["kukadu::PlanarCutTransformator"]
    kukadu_OpenBoxFilter --|> PCTransformator
    kukadu_PlanarCutTransformator --|> PCTransformator
```

The diagram illustrates a class hierarchy. At the top is the 'PCTransformator' class. Below it are two subclasses: 'kukadu::OpenBoxFilter' on the left and 'kukadu::PlanarCutTransformator' on the right. A horizontal line connects the two subclasses, with a vertical line extending upwards from its center to an arrowhead pointing at the 'PCTransformator' box. A vertical dotted line also extends upwards from the 'kukadu::OpenBoxFilter' box to the same horizontal line.
